Stuart Houston is the Global Head of Presales & Solutions for Financial Services Analytics in the Financial Services Global Business Unit (FSGBU) at Oracle Corporation. Stuart manages a team of approx. 40 Financial Services Analytics SME's, including 4 regional teams, and works closely with Oracle's marquee clients and strategic partners to help drive the selection and delivery of analytical solutions from Oracle that provide a timely, relevant and high quality capability to the business unit and institution.

In this role, Stuart provides domain and solution leadership in the Financial Services Analytics business area, encompassing Oracle's Financial Services Analytical Applications (OFSAA), Business Intelligence and Advanced Analytics offerings, covering the key domains of Information Architecture, Enterprise Risk Management, Enterprise Performance Management, Financial Crime & Compliance Management & Customer Insight, increasingly in support of the move to real time and forward looking insights occurring in the industry.

Stuart is also responsible for the management and execution of Oracle's solution strategy and solution sales and enablement collaterals in the Financial Services Analytics area, and is a regular participant in various thought leadership activities and conferences globally.

Over the last 25 years Stuart has been involved in many engagements in the area of architecting and implementing Oracle Applications solutions across a broad range of focus areas, including Finance Transformation, Integrated Risk & Finance, Corporate Performance Management, Customer Relationship Management and Human Capital Management.
