PERCORSO PROFESSIONALE

Alessandro is Vice President Sales Technical Support of the Cyber Security & ICT Solutions Line of Business in Leonardo. Alessandro is responsible for Presale, bids & proposals, portfolio innovation and partnerships for the domestic and international markets.

He achieved this position after several activities within the Security & Information Systems Division of Leonardo and in the Corporate. In particular, previously he was the Head of Systems Engineering for Cyber Security & Information Assurance and the Head of Product Management & Partnerships.

Today he is actively involved in the development of strategic European and national initiatives to strengthen the collaboration among the Academia, the industry and the Public Institutions in Cyber Security.

Alessandro joined Leonardo in 2004. Alessandro holds a MSc Electronic Engineer degree in Communications Systems from "Roma Tre" University; he has been a lecturer in Cyber Security, Strategy and M&A.
