

Ziv Cohen
CEO
Paygilant LTD

Ziv has over 18 years of experience in the cybersecurity and fraud arena with more than a decade in driving sales strategy and execution, for innovative startups as well as established Fortune 500 companies.

He is responsible for Paygilant's strategy and execution and brings vast experience and a strong background in the international security market.

Prior to joining Paygilant, Ziv managed Trusteer's (acquired by IBM) financial fraud and advanced threats enterprise protection solutions, where he established and grew EMEA sales from zero to multi-million revenue.

In addition, Ziv managed RSA (EMC) FraudAction business operations where he was responsible for delivering Anti-Fraud services to hundreds of financial customers globally.
